

REMARKS

Claims 39-58 have been allowed in this patent application. Applicants respectfully request that new claims 59-62 be added. Support for these claims can be found in the Specification for example at p. 12, ll. 1-22. These amendments are needed to cover embodiments of the disclosed blends that are not currently recited in the dependent claims. These claims do not require an additional search or examination because they depend, directly or indirectly from allowed claim 39. Moreover, the claims are also allowable as a matter of law for the same reason. The claims were not presented earlier due to the business strategy of the Applicant and are being presented now due to a change in that strategy. Thus, the Applicants respectfully request the Examiner to add these claims by approving the entry this amendment

The Assistant Commissioner is hereby authorized to debit any fees or credit any overpayments to Deposit Account No. 50-3420, reference 31176280-032001(Abdon).
